EDUCATION

2019-2023	B.Tech at **Dr Ambedkar Institute Of Technology for Handicapped**	(GPA: 8.0/10)
	kanpur,UttarPradesh	

SKILLS

Languages	C++ ,JavaScript , SQL, HTML5 ,CSS3
Libraries and Frameworks	ExpressJS, Nodejs,ReactJs, Bootstrap
Tools and Databases	Git, Github, VScode ,MongoDB, MySQL, Postman
Soft Skills	Leadership, Time Management, Problem Solving

PROJECTS

Mern-Chat-App Source Code

- Developed a chat application using React, Nodejs, Express, and MongoDB to allow users to send and create groups with their contacts.
- Designed and implemented a scalable and efficient database architecture using MongoDB to store user , group ,message information.
- Built a robust authentication system using JSON Web Tokens (JWT) to secure user accounts and protect sensitive information

Expense-Tracker Source Code

- Expense Tracker allows user to track their expenses and premium users can download their expense and change theme feature.
- Implemented firebase realtime data to manage data at backend.
- Implemented user authentication using firebase Authentication to ensure only authorized users can access the expense tracker.

E-commerce Web-APP Source Code

- E-commerce website is an application that gives users the option to see different products and add them to the cart, manipulating cart data
- User needs to log in to access their cart and users can see the product details as well.
- Used Firebase for authentication and Real-time data for storage

WORK EXPERIENCE

Backend Intern Attire Valley

Developing RESTful APIs using Node.js and Express to handle HTTP requests and responses.

Implementing user authentication and authorization using libraries like JWT.

Designing and implementing scalable architectures for applications using best practices and patterns.
